AMENDMENTS TO THE SPECIFICATION:

Page 5, please amend the paragraph beginning on line 18 as follows (as previously presented in the Amendment filed April 27, 2009):

—The present invention relates to a method for manufacturing C-13 glycosylnemadectin comprising culturing a microorganism strain belonging to Streptomyces cyaneogriseus subsp. noncyanogenus, producing and accumulating C-13 glycosylnemadectin and isolating C-13 glycosylnemadectin from the cultured mass. Further, the present invention relates to the microorganism strain belonging to Streptomyces cyaneogriseus subsp. Noncyanogenus comprising gene groups of avermectin aglycon biosynthesis of Streptomyces avermittilis and having ability to produce C-13 hydroxylnemadectin and C-13 glycosylnemadectin.—
